Great, thanks! I only have comment access to this one, so could you please add to the column header that the Award Description is from FACTSInfo?

Additionally, per Mark's request, we need to add more specificity to the justification, so that should include the specific activities column, and we have asked program area leads to go back and add the estimated number of lives saved as well to bolster the justification. Can we also add that column to the file that will go forward to the FO?

Thanks,  
Nick

Hi Nick - I'm confirming that we've added the Award Description to this file that we have been using to share our lifesaving humanitarian assistance awards with the FO.

A couple did not have Award Descriptions included (likely because they were new awards). As you know, the Award Descriptions (i.e., Implementing Mechanism Narrative) is provided during USAID's operational planning process. These descriptions typically remain largely consistent over the lifespan of the award and may include descriptions of activities / countries / etc. that are beyond what is covered under the waiver.
