Hi Kyle

The programs team has come up with an issue we have identified with the FAQs that went out from State/F.

Specifically, under question 20 of the FAQs, the health accounts specified as falling under the blanket lifesaving humanitarian assistance waiver include only "GHP-State and GHP-USAID for HIV/AIDS assistance."

**This definition apparently excludes all non-HIV lifesaving activities from the lifesaving humanitarian assistance waiver, and thus needs to be corrected to allow for critical lifesaving activities (e.g., TB and malaria treatment, infectious disease outbreak response, etc. etc.**

This is problematic as we have been urgently doing marburg, ebola, polio, and TB programming that is lifesaving and a FO priority and that is done with GHP-USAID that is not just HIV/AIDS.

Is there a way to update the FAQ please?

Thanks, CT
